

Beaumont Health's Introduction to Oncology Massage Class

offered at the

Institute for Massage Education

September 21-23, 2018 * 8am-5pm

Attend Beaumont's Introduction to Oncology Massage Class and learn how to safely treat cancer patients throughout their journey and into survivorship or end of life.

Curriculum includes:

- Pathophysiology of cancer
- Common cancer treatments
- Side effects of cancer treatments
- Contraindications
- Hands-on protocols
- Plus much more

Sunday includes a half-day clinic where each student treats a cancer patient or survivor utilizing protocols learned in class.

Instructor: Karen Armstrong LMT, BCTMB is the manager of clinical massage at Beaumont Health and oversees 30+ oncology-trained LMTs. Karen is an active member of the Society for Oncology Massage (S4OM) treating cancer patients since 2005 and teaching oncology massage since 2006.
